

Figure 1 is a perspective view of a first embodiment of a light emitting device. The device is shown in a perspective view, revealing its three-dimensional structure. It features a substrate 20a, which is a rectangular block. On the top surface of the substrate, there is a central light emitting layer 21a. A curved electrode 23a is positioned on the right side of the light emitting layer. A dashed line 22a indicates the center of the device.

Figure 22b is a perspective view of a road with a dashed center line and raised curbs on both sides. The curbs are labeled 20b, 21b, and 23b. The road surface is labeled 22b.
